

Bruno Ladrón de Guevara Hannig

Manager/Partner
bruno@bentos.cl

His professional experience started in the academic environment in the Centro de Investigaciones Biológicas (Madrid), to join later as Research Fellow, the Smithsonian Topical Research Institute (STRI) in Panama. Later joins the international company Dames & Moore where he acts as Project Manager of Marine Projects. In 1996 assumes the direction of BENTOS as Managing Partner. Since 1993 Mr. Ladrón de Guevara, has participated as project manager in more than 80 marine projects coordinating studies of physical oceanography, surveying, underwater imaging, environmental assessments, permitting and logistic support for marine projects. Most projects are related to the development of ports, outfalls, and industrial projects in the coastal border. He is an active member of the Chilean Society of Ocean Sciences and professional diver.
