

Luis Jollán Vernal

Operations Manager/Partner
luis@bentos.cl

His professional experience started in the academic environment in the Universidad Católica del Norte (Chile), to join later the international company Dames & Moore where he acts as Marine Biologist Staff and later as Field Project Manager of Marine Projects. In 1997 assumes the direction of BENTOS as Partner. Since 1993 Mr. Jollán, has participated as project manager in more than 70 marine projects coordinating studies of physical oceanography, surveying, underwater imaging, environmental assessments, permitting and logistic support for marine projects. Most projects are related to the development of ports, outfalls, and industrial projects in the coastal border.
